GEO-FIBER SERVICE

(LEASE PLAN)

The seamless, zero-entry-cost operational solution for fiber optic networks.

PRICING STRUCTURE

- **Initial Investment (Hardware):** 0.00 \$ (CAPEX 0)
- **Platform Fee (Geo-Fiber App):** xxx \$ / month

COMMERCIAL PHILOSOPHY This model is designed for rapid technological deployment without depleting your company's capital. Geo-Fiber assumes the full acquisition cost of the monitoring device (Edge Device), providing and integrating it under a lease agreement. The monthly subscription fee covers both the amortization of the physical equipment and the continuous access rights to the cloud application for remote fault management (instant alerts and GPS translation).

EXCLUSIVE CONDITIONS & CONTRACTING

- **Geographical Exclusivity:** This lease plan is available **exclusively to companies located within the territory of Venezuela.**
- **Corporate Profile:** The approval and viability of this plan are subject to a rigorous evaluation of the client's corporate, technical, and financial profile.
- **Mandatory Safeguarding Contract:** It is strictly mandatory to execute and sign an annexed contract stipulating the legal conditions for the handling, care, maintenance, and safeguarding of the leased equipment.
- **Extended Support:** Includes immediate hardware replacement for any verified manufacturing defects throughout the service term.
